Dear Professor,

I hope you are doing well. I wanted to give you a quick update on the preparations for our annual tech-fest, Viwentiaa 2026.

So far, we have made good progress with the planning. The main events have been decided, and responsibilities have been divided among the different teams. We have also started the registration process and begun working on publicity and promotion to encourage more students to participate.

The teams handling technical arrangements, hospitality, logistics, and publicity have also started working on their respective tasks. We have discussed the venue requirements, equipment, certificates, prizes, and other arrangements needed for the event.

There are still a few things left to complete. We need to finalise the venues and equipment, complete the registrations, confirm the judges and guests, and finish the publicity activities. We also plan to have a final meeting with all the teams and conduct a rehearsal so that we can identify and fix any issues before the event.

Overall, the preparations are going well, and we are working together to make sure everything is ready on time. We will keep you updated on the progress and let you know if we need any guidance or support from your side.

Thank you for your support and guidance.

Regards,
Bhavya Sri
Organizing Committee
Viwentiaa 2026
